What Does “Built On Salesforce” Mean?

Salesforce Is Your Growth Blueprint.

Cloud-based and able to host and process a staggering variety of business operations, information, and payments, Salesforce is a platform for success. And all Salesforce-built solutions are compatible with each other. It's an ecosystem in which businesses can use Salesforce's CRM for sales and marketing as well as to adjudicate claims.

Salesforce makes your business’s operations simple, secure, and scalable.

It’s a launchpad to growth and success.

Integrate with IPS

Compliance and claims administration are core components of your business, and IPS delivers with the Salesforce compatible Transparency+ and Encompass+ platforms. Just leave the setup to us! Through Salesforce, IPS can connect directly with your:

- **Tech Stack**
- **Marketing & Sales Hub**
- **Phone System**
- **Finance Systems**
- **Claims, Benefits, and More.**

Integrated Payor Solutions

salesforce

Native to Salesforce, Integrated Payor Solutions' business growth software integrates into and empowers:

- Your Compliance with Transparency+
- Claims Administration with Encompass+
- *And Everything Else*

Integrated Payor Solutions offers transformational, Salesforce-based solutions that power your payor or network business. A full-stack tech solution, Encompass+ removes the burden of having to invest in additional IT resources and manage multiple platforms. Employers and providers can access through user-friendly portals, while detailed and customizable reporting allows quick comprehension of that data. Our solution, Transparency+, is a stand-alone claims processing system and cost estimator built on the dynamic Salesforce platform. With Encompass+ and Transparency+, you can easily fulfill the key components required by the No Surprises Act and have everything you need to grow your business.

Transparency+
an Integrated Payor Solutions product
